

Global Health

Initiative	Grand Challenge - Global Health
Campus Priority	Wisconsin Idea
Sponsor	Provost
Project Lead	Jeanette Roberts Jeremi Suri
Key Players	Vicki Bier, Industrial and Systems Engineering Gilles Bousquet, dean, International Studies Cindy Haq, director, Center for Global Health Jim Conway, Pediatrics – back up for Cindy Haq Chris Olsen, Veterinary Medicine Patrick Remington, vice dean, Public Health Jonathon Patz, Nelson Institute, director – Center for Sustainability and the Global Environment Susan Kidd Webster, Social Work Laura Heisler – representing WARF's sponsorship
Aims (What do we want to accomplish?)	The charge to this group is to elaborate and further explore exactly what a campus-wide global health initiative might embody. These should fully embrace the Wisconsin Idea, build on current efforts, and include all aspects of our mission: education, research, and service. The results of these deliberations should provide guidance for the long-term vision of what we might accomplish, as well as recommendations for near-term actions we would take toward that longer-term vision.
Indicators of Success (How will we know we have made progress?)	
Existing Efforts (Are there related projects already under way?)	Center for Global Health, SAGE, etc.
Key Strategies or Actions	
Timeline (Key dates)
